MEMORIAL OF THE BOARD OF TRUSTEES

UPON THE DEATH OF

THE REVEREND JOHN ROUSE.

ST. LUKE'S HOSPITAL, CHICAGO, December 8, 1897.

The trustees of St. Luke's Hospital sympathize deeply with the parish of Trinity, the Church in the Diocese of Chicago, and the bereaved family of the Reverend John Rouse, whose death this whole community has been so suddenly called on to deplore.

They wish to express also their sense of the loss which the institution under their direction has sustained in the death of Mr. Rouse. Within a month or two after his coming to Chicago he became one of the Trustees of the Hospital, and has ever since been one of the most faithful and devoted members of our Board, and his prudent and highly prized counsels will be greatly missed.

It is a great comfort to the Trustees that in this Hospital, which he so dearly loved, his last hours were surrounded by every aid that the best medical skill in the city could afford, and it is a great sorrow to them that, in the wisdom of God, those aids proved so unavailing.

MEMORIAL RESOLUTIONS OF THE BOARD OF TRUSTEES

UPON THE DEATH OF

MRS. ELIZABETH H. STICKNEY.

The death and the splendid benefactions of the late Mrs. Elizabeth H. Stickney, of blessed memory, have been noted at length in the religious and secular press, but it would be strange, indeed, if the authorities of St. Luke's Hospital did not hasten to add their tribute of respect to the memory of one to whom they are so greatly indebted.

They have not only in mind the noble legacy of seventy-five thousand dollars, which they are to receive through her will, but her constant and unswerving interest and generosity from the very foundation of this charity.

She was among the first to undertake the support of a bed in the Hospital, and she faithfully carried out that undertaking through a long series of years and until her death. When the present Hospital was opened she furnished in the most beautiful and complete manner one of its best rooms, which now bears and ever will bear the name of her honored husband. There never was an appeal made by the Trustees for any special object to which she did not immediately respond. She furnished the nurse's quarters, and the parlor and bed room of the Superintendent of Nurses, and ever kept that large division of the Hospital supplied with the proper linen. It is to her we were indebted for the money with which to equip and inaugurate the Diet Kitchen. In fact we can not look anywhere in our Institution without seeing some evidence of her thoughtfulness and her generosity.

We are indebted to her not only for liberal supplies of money, but for wise counsel and unselfish personal service. She was a valued and conscientious member of our Training School Board and the Auxiliary to the Board of Trustees. The chairman of this committee now reporting, bears grateful testimony to her many words of sympathy and encouragement in hours of discouragement and depression during his long Presidency. St. Luke's Hospital can never forget Mrs. Elizabeth H. Stickney. May she rest in peace and may perpetual light shine upon her.

On behalf of the Trustees,

CLINTON LOCKE, T. N. MORRISON, ERNEST M. STIRES,	}	Committee.

THIRTY-FOURTH ANNUAL REPORT OF THE TRUSTEES

FROM OCTOBER 1, 1896 TO OCTOBER 1, 1907.

The number of in-patients for the year was 1,561, as against 1,672 for the year previous.

The dispensary work shows 11,317 visits as against 9,516, a gain of nearly twenty per cent. The percentage of free work is slightly in excess of that of last year—fifty-two per cent—although the amount of it is a little less.

The receipts from charitable sources have been small and the earnings of the Hospital have been marked by great fluctuations, so that the outcome of the year has been very uncertain.

It was, accordingly, a venture of faith last summer to continue to receive all who seemed proper applicants for admission, and it was with sincere thankfulness that we reached the end of the year without a deficit.

The condition of the Hospital building is creditable, everything being in good order and all repairs made as the need for them has become evident.

There is much of this, however, of a large sort to be accomplished in the near future. Many of our floors are urgently in need of attention, and the time has come for us to take active steps in regard to an operating room, or set of operating rooms, which shall be worthy of the position which the Hospital occupies in the estimation of the medical profession and of the public.

The year has brought us in gifts and endowments, \$13,748.65 from the estate of Mrs. A. Emory Storrs; \$3,000 endowment from the Victoria Diamond Jubilee Association, and \$10,000 from the late George M. Pullman, a gift in the name of his grandson, George M. Pullman Lowden, \$5,000 of the same being to endow a bed, and \$5,000 an endowment fund to provide for the maintenance of the furnishings and linen of the Florence Ward. Mr Pullman also made to the Hospital the large bequest of \$20,000—\$10,000 as the endowment of two beds, and the balance for such use as might seem best in the judgment of the Trustees.

It is with thankful hearts, and in grateful memory of the generous donor, that we make mention also of the splendid bequest of Mrs. Edward S. Stickney of \$75,000 for Hospital purposes. Of this, \$20,000 goes to endow two rooms, to be called, one, the Edward S. Stickney Room, the other the Elizabeth H. Stickney Room. The remainder of the bequest is to be used, in whole or such part of it as may be deemed necessary to build the Home for Nurses, which has for some years been the subject of appeal to the generous friends of the Hospital.

This will be the largest sum that the Hospital has ever received, and while the building of the Home will add to the expense of maintaining the Hospital, yet its receipts may also be expected to be augmented; for the rooms now occupied by the nurses will be available for private patients, and it is hoped that there will be a sufficient profit from these rooms to add materially in providing for the free work which makes a constantly growing demand upon us.

The Trustees gratefully acknowledge the continued generosity of the many friends and patrons of the Hospital, at the same time reminding them that it is now in greater need than ever of assistance, and that no friend can be spared. For the coming year we need more generous help

from all whom God's blessing has enabled to give to the sick and needy.

In closing, the Trustees desire to render the thanks of the Institution to the Medical Board, the House Staff, and the Dispensary Board, for faithful services during the year; and in the same manner, also, to thank the Superintendent of the Hospital, and the officers, pupils, and employes of the Hospital and Training School, for their faithful services.

The Trustees, also, desire to again thank the ladies of the Auxiliary Board, for their devotion to, and interest in, the Hospital; and, also, to return the most grateful acknowledgments to all who have aided the Hospital in any manner.

The various reports are herewith submitted, showing the workings of the Hospital in detail.

REPORT OF SECRETARY OF AUXILIARY BOARD.

To ARTHUR RYERSON, Esq.,
President of St. Luke's Hospital.

DEAR SIR: The Auxiliary Board acknowledges with gratitude \$1,118.57 received. This money was used for the support of the beds mentioned in the Treasurer's report, for the purchase of table linen, towels, pillow cases, sheets, and blankets for the Hospital.

It is a matter of regret that, owing to the depressed financial condition of the past year, the Auxiliary Board has not been able to carry out its desire to provide sufficient money for the complete maintenance of the beds, for which subscriptions were undertaken.

The Auxiliary Board acknowledges with gratitude the contributions received on Donation Day, and at other times during the year, and trusts that the interest in the Hospital, evinced by many kindnesses of which it has been the recipient, may continue and increase.

The Auxiliary Board has sustained a severe loss in the death of Mrs. Stickney, our late president; in regard to which the following was adopted :

Since the last meeting of the board, our beloved member and late president, Elizabeth H. Stickney, has been taken from us. Mrs. Stickney's deep interest in the Hospital came, as did her interest in many other good works, from her innate faithfulness and conscientiousness of character. She was eminently just in all her dealings with and treatment of those with whom she came in contact, and the affection and respect with which she was so universally regarded was

founded upon the truest and deepest consideration. For many years she has been a regular and liberal contributor, both to the Hospital, by the support of the Stickney Room, and to the treasury of this board; and her splendid bequest makes her name a memory still more a part of the institution. The Auxiliary Board desires to place upon record their great sorrow at the loss which they have sustained, both personally and as a board, in the death of Mrs. Stickney.

Resolved, that the preceding memorial be placed upon the records of the board, and a copy thereof sent to the family of our late president and member.

Respectfully submitted,

HELEN L. CARTER,

Secretary.

REPORT OF THE SUPERINTENDENT.

CHICAGO, October 1, 1897.

TO ARTHUR RYERSON, ESQ.,

President of St. Luke's Hospital.

DEAR SIR:—The following is the report of the work done in the Hospital during the past year, from October 1, 1896, to October 1, 1897.

The number of patients remaining October 1, 1896..... 96

The number of patients admitted during the year was:

Number of free patients admitted 602

Number of part pay..... 323

Number of pay..... 636

Total admitted.....	1,561	
---------------------	-------	--

The number of days devoted to free patients, 42 per cent. .16,093

The number of days devoted to pay and part pay, 58 per cent. 21,749

Equivalent to.. $\left\{ \begin{array}{l} 52 \text{ per cent.} - 19,679 \text{ full free.} \\ 48 \text{ per cent.} - 18,163 \text{ full pay.} \end{array} \right.$

Total number of hospital days..... 37,842

The greatest number of patients was 136, on July 8; the smallest number, 79, on Sept. 5; the average, 104.

The total maintenance expense was \$62,406.38.

The number of Hospital days was 37,842, and the cost per patient per diem \$1.65. The rise in the price of provisions has made itself felt in our purchasing, the only very clear impression made upon us so far by the return of good times. At the beginning of the year some unusual expense was incurred in putting in order the outside wood work, and a good deal has been spent in replenishing the linen supply through the house. The Hospital is probably supplied now as well as it ever has been in this line.

The amount of work done in the Hospital is something less than last year. The Dispensary shows an increase of nearly twenty per cent in the number of treatments given, and an increase of receipts from the prescriptions filled for Dispensary patients. About \$600 has been received from this source during the year, and about three times as many prescriptions are filled *gratis* as are filled for pay. The sliding scale system used demands more care and judgment on the part of our pharmacist than would the fixed rate system generally in use in dispensaries, but it is fairer to the patients and we find it both reasonable and satisfactory. An earnest co-operation of the dispensary clerk, the pharmacist and the attending doctors, has done much to keep in check the great evil of drawing into the Dispensary those who really could and should pay fees for their advice, and go to a drug store for their medicines.

The private rooms have given a satisfactory return, though smaller by some thousands of dollars than last year. There has, however, been a very great fluctuation in the number

of pay patients, the private rooms alternating between the extremes of vacancy and overflow in a manner most perplexing to those who were endeavoring to estimate the probable income of the Hospital for the year, in order to determine the amount of free work that might be done.

The year has passed quietly and there is little out of the usual to record, but it has not differed from other years in the constant efforts made to alleviate the sufferings of all who came within the doors of the Hospital.

Yours respectfully,

J. W. VAN INGEN,
Superintendent.

CHAPLAIN'S REPORT.

To ARTHUR RYERSON, Esq.,
President St. Luke's Hospital.

DEAR SIR: The religious exercises of the Hospital and Training School have been regularly held during the year. Morning and evening services have been held each day in the Chapel. The attendance of nurses and patients has been uniformly good. Daily evening services have been held in the four open wards, and visits made and services held with private patients whenever desired. The Holy Eucharist has been celebrated on each Sunday and Holy Day in the Chapel, and a number of private celebrations had in rooms and wards. At the sixty-three celebrations in the Chapel, 645 communicants received at the altar-rail, and 143 in rooms and wards. Nineteen infants and eight adults were baptized. Twelve burial services were held, two marriages were solemnized, and the office of churching used twice. Friends have donated some altar linen during the year. We have received many donations of books, pamphlets, magazines, pictorial papers, and flowers, which have been regularly distributed among the patients, and have been highly appreciated by them.

It is impossible to estimate the value of regular religious services in an institution like this, but every Christian person must be assured that the duty to God thus rendered, and the blessing of God thus sought, is in accord with the will of Him who has said, "Them that honour Me I will honour, and they that despise Me shall be lightly esteemed."

Respectfully submitted,

CHAS. T. SUSAN,

CHICAGO, October 15, 1897.

Chaplain.
